Dear Sir / Madam,

This is in continuation to CDSCO e-Governance system demonstration held on 13.04.2015 at CDAC, Noida, e-CDSCO application is ready to roll-out for the public. It has been decided to carry out the field trial of the system. Hence, you are requested to register in the portal www.cdscoonline.gov.in and file online applications and may also be ensured that the applications are filed for both finished formulation & bulk drug.

Further, you are also requested to upload the specific documents considering as original filing of application. It may please be noted that it is only for trial purpose, whatever the application / data filed online will be deleted after completion of the trial process.

You are requested to send your feedback on or before **21.09.2015**.

Important Instructions for online submission of the applications:

1. All users should first download & follow the registration guidelines, link of which is available either on the pop-up window of the portal front page or on right hand side of the signup page.
2. After submitting the registration request, user need to check his registered email & click on the validation link for validating the email account.
3. Once the account is approved by CDSCO, user will get an email notification.
4. Online user manual for e-CDSCO application is available on the user dashboard, after user logs-in to the portal.
5. Users can provide their feedback or report a problem with the link provided at the right bottom of the portal home page in the report a problem section.

As this a trial run of the application, please note the following important points:

1. Users need not to submit the hard copy of the documents that are mentioned in the guidelines document.
2. User will not receive any messages as, SMS services are not enabled for trial run.
3. All data that will be entered by the users during the trial run of the e-CDSCO application will be removed before the actual launch of the application.
